Mining Magnates Forming Rocky Mountain Club Meet in New York. New York, May 8.—John Hays Hammond, first president of the Rocky Mountain club welcomed its members last night to their quarters in the hotel Plerrepont with a brief address in which he said: "No bars on the family escutchean or the cut of the clothes make a difference here. All we exclude are the big six shooter, the large shirt front diamond and the wide hat

clude are the big six shooter, the large shirt front diamond and the wide hat of the bad man. It is a club for the furtherance of friendship and the means for good fellowship."

Gathered about Mr. Hammond was a notable assemblage of representative men of the Rocky mountain states and California, Oregon, Washington, and Alaska. So many of them now spend much time in New York that a membership of 300 was obtained for the club soon after the project was started last winter.

hat announcement will be made that salt Lake capitalists have organized hemselves into a mining company to ake over and operate the Buckaroo group of claims is the district just ver the divide from Dyke. The property is in Humboldt county, Nev., perty is in Humboldt county, Nev., and lies on the west side of the I'lne Forest range. The district is one of the newest in Humboldt county and sensational strikes reported in the section a few days ago have resulted in the usual excitement. A rush is now on towards the scene and scores of prospectors are hurrying over the hills to get in among the first arrivals.

Herman Wunderlich, a mining man from the southern part of the state, visited the district and secured a short-time option on the Buckaroo group of claims at a good round figure. He left camp quietly on a flying trip to this city and upon arriving here went into conference with a number of security and upon arriving here went into conference with a number of security.

number of associates and acquaintances.

Those who have visited the baby district believe it has the continuation of the dyke porphyry belt. It has been crossed and passed unnoticed for years as the ground is covered with a light lava overflow. Closer examination has lead to the discovery that porphyry dykes jut through this light lava crust and samples pan well in free gold. The formation is a free grained quartz, commonly known among prospectors as "mahogany" quartz. The gold occurs very fine. Float and outcroppings found encourage a belief that big ore bodies are to be opened with development.

MAY BE DULL SUMMER. Affairs at San Francisco Act as Wet Blanket to Stock Game.

Blanket to Stock Game.

James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire, this afternoon. Our San Francisco correspondent, Nat Boas, gives his views on the Nevada mining stock market situation as follows: "Money and over-feeding of too many stocks is causing weakness besides the regular summer duliness, coupled with past labor troubles and a real bad condition of affairs exists in Frisco. Banks here and at Goldfield are not loaning and the margin stocks are making their appearance. It looks like much lower prices for two months to come, excepting occasional railies, I expect regular fall bull market again in August and think then will be the time to buy mining stocks."

MONSTER DEAL REPORTED. Trinity, Balaklala, Nevada-Utah and

Imperial Mentioned. Word comes from the east that a big deal is approaching consummation which will mean a consolidation of the Trinity, Balaklala, Nevada-Utah and Trinity, Balaklala, Nevada-Utah and Imperial companies. The absorption of a smelting company is also included in the reported deal. Thomas Lawson of Boston is to be placed in charge of the affairs of the new company, according to the report. Such a deal would be interesting and its consummation would be an event in the country's mining history.

TO ELECTRIFY OLD MILL.

Utah Copper Remodeling Old Plant at Copperton Just Below Bingham.
The Utah Copper company has just let a contract to the General Electric company to supply all electric eculpment and machinery needed to make its old plant at Copperton modern and up-to-date in every detail. The mill was built some years ago with a capacity of 1,000 tons per day. It has been in constant operation since, being driven by a big Corliss engine. All necessary power was furnished by steam. The engine is to be replaced by individual motors which will supply the 700-horse power needed to run the various portions of the big concentrator. The company will continue to use the mill after its 6,000-ton plant at Garfield is completed and running. Power will be transmitted from the company's power house at Garfield.

AMONG THE UNLISTED.

AMONG THE UNLISTED.

Copper Glance was treated severely during trading in the unlisteds yesterday and during the drubbing tumbled from 22 cents to 19½. This unlisted is prominent and many guesses wer being made as to what caused the decline. A pending sale was thought to have been called off and again others believed the weak stockholders were being weeded out and their stock snatched up to add to the profits of the pending deal. The second reason was more in favor than the other. There were plenty of buyers to take up every bit of stock that loosened. Other unlisteds brought into attention yesterday afternoon were: Bingham Standard, weak and quiet, one sale at 50c.; Emma Copper, steady, 28 cents bid, 28½ asked: Ohio Copper, sold at \$3.95; Newhouse, \$19; Mason Valley, \$1.85 to \$2; Kearns-Keith, \$5.25 to \$6.90; Honorine, \$2c to \$5; Congor, 45 to 55. First Prices Were up From Yesterday, Soon Yielding, Then Advancing.

WAS PRONOUNCED WEAKNESS

This Was at Isolated Points-Purchasing Orders Were in Half a Dozen Stocks.

New York, May 8 .- First prices of stocks were higher than last night. The changes were narrow as a rule, and the volume of business was small. Canadian Pacific and Big Four rose a point and St. Paul, Reading and Pennsylvania large frac-tions. Interborough Metropolitan preferred fell 116. Some yielding of prices followed the

opening rise but the market soon advanced again. Most of the purchasing orders were again. Most of the purchasing orders were in a half dozen stocks, the rest showing but little sympathy with the leaders. Federal Sagar preferred made a gain of 6, St. Paul, Union Pacific, Great Northern preferred, Smelting and United States Rubber 1.

There were isolated points of pronounced weakness but the market in general was at a standstill at yesterday's final prices or below. Baltimore & Onio, Republic Steel and Great Northern Ore Certificates gave way 1.
